

Education, Training & Employment Solutions

Cyber Security Technologist

A Cyber Security Technologist is responsible for understanding and preventing cyber threats, hazards, risks, controls, measures and mitigations, in order to effectively protect an organisations' systems, data and people.

With Cyber Security taking many forms, shapes and sizes within organisations, our Cyber security Technologist programme is tailored specifically to the needs of your business and the role requirements. You may require your employees to develop the technical skills such as; security design & architecture, security testing, investigations & response, or become proficient in risk analysis, through understanding and application of effective business operations, risk, governance & compliance.

Programme Benefits and Outcomes

Your Cyber Security Technologist will be able to;

- Develop a range of technical proficiencies, including but not limited to – Ethical hacking and penetration testing, Cryptography and encryption, Open source intelligence (OSI), Understanding the security standard ISO27001.
- Understand how the skills fit your business requirements and implement these effectively
- Develop the character necessary to perform well under pressure

Nationally and Industry Recognised Qualifications

Alongside the programme, your employees will gain a Professionally recognised qualification to support their development, supporting your organisation in developed a high-skilled workforce.

Continuation Courses for your Employees

TEAM LEADING AND MANAGEMENT

Once your employee has developed the skills, knowledge, behaviours and experience needed to thrive in their role, and how to perform in a highly pressurised environment, our tailored pathway courses can support your organisation to progress them into supervisory, managerial, and even leadership roles. We do this successfully through advancing the skills, knowledges and behaviours previously learned, and supporting your employee to understand how the combination of technical knowledge and leadership skills and capabilities can benefit themselves, the staff and the organisation as a whole.

Our Cyber Security Technologists have gone on to completing the following continuation courses;

TEAM LEADING LEVEL 3

TEAM LEADING LEVEL 5

OPERATIONS MANAGER LEVEL 5

THESE HAVE LEAD TO EMPLOYEES PROGRESSING INTO THE FOLLOWING ROLES;

Cyber Operations Manager, Security Architect, Cyber Security Specialist, Governance & Compliance Manager, Security Engineer

Programme Support and Additional Services

Our programmes are developed to support your business needs in developing the talent, skills and knowledge needed to help your business grow and succeed. Our Cyber Security Technologist course also includes the following components;

24 months programme duration

supported through industry recognised qualification

Dedicated Account Manager

monthly meetings to satisfy all your questions, feedback and communication needs

Personalised coach, tutor and assessor

weekly contact for your employees off the job training (virtual, telephone, face-to-face)

Training Costs

Levy businesses can use their contributions to pay for this training. The costs will be £18,000.

If you are not a levy paying business there may not be a cost for this training. If the employee on this programme is under 19 and your business has less than 50 employees, there will be no cost for the training. If they are over 19 and/or your business has over 50 employees then you will contribute 5% towards the cost of the training which would be £950.
