Network Engineer

A successful Network Engineer, should be able to design, install, maintain and support communication networks within an organisation or between organisations. Our programme goes one step further to ensure your staff are able to maintain high levels of operation and communication networks in order to provide maximum performance and availability for their users, whether staff, clients, customers or suppliers.

Our programme develops the skills and competencies needed for network configuration, cloud, network administration and monitoring tools, as well as the technical knowledge and customer service to provide excellent remote technical advice and guidance to end users.

Programme Benefits and Outcomes

Your Network Engineer will be able to;

- Develop a range of technical proficiencies, including but not limited to – Network Principles, Mobility and Cloud, Advanced Network Systems and Architecture, Instillation and Configuration, Network Security.

- Understand how the skills fit your business

  and customer needs and implement these effectively

- Provide exceptional customer service

Nationally and Industry Recognised Qualifications

Alongside the programme, your employees will gain a Professionally recognised qualification to support their development, supporting your organisation in developed a high-skilled workforce.

Continuation Courses for your Employees

TEAM LEADING AND MANAGEMENT

Once proficient in role, with the skills, knowledge, behaviours and experience needed to thrive, our tailored pathway courses support your organisation to progress employees into leadership roles, taking on supervisory, team leading and line management responsibilities. We do this successfully through tailoring our programmes to the specific needs of your employee's leadership development, alongside the detailed requirements of your business.

Successful completion of the Network Engineer programme can lead onto;

| TEAM LEADING LEVEL 3 | TEAM LEADING LEVEL 5 | OPERATIONS MANAGER LEVEL 5 |

Programme Support and Additional Services

Our programmes are developed to support your business needs in developing the talent, skills and knowledge needed to help your business grow and succeed. Our Network Engineer course also includes the following components;

18 month programme duration

supported through industry recognised qualification

Dedicated Account Manager

monthly meetings to satisfy all your questions, feedback and communication needs

Personalised coach, tutor and assessor

weekly contact for your employees off the job training (virtual, telephone, face-to-face)

Training Costs

Levy businesses can use their contributions to pay for this training. The costs will be £17,000.

If you are not a levy paying business there may not be a cost for this training. If the employee on this programme is under 19 and your business has less than 50 employees, there will be no cost for the training. If they are over 19 and/or your business has over 50 employees then you will contribute 5% towards the cost of the training which would be £850.
